BUILT-IN BATTERY BACKUP BULB

# Everbright

Never be caught in the dark with the lightbulb that automatically switches on when the power goes out. It works as a standard lightbulb with a reliable built-in emergency light that illuminates in the event of a power-outage.

- Lithium-ion battery provides: 3.5 hours of backup light for A19, 12 hours for BR30 floodlight at 250 lumens and 4 hours at 100 lumens
- Recharges using power current from standard socket
- A19: 40 Watt equivalent using only 9W, 500 lumens  
BR30: 65 Watt equivalent using only 10W, 650 lumens
- During a power outage, the bulb can be turned on and off as normal.

BR30
