

AUDIO

JBL® BLUETOOTH® SPEAKER SYSTEM

# Pulse

Enjoy the high-quality audio of a JBL Bluetooth speaker inside a dimmable LED light. Simply twist bulbs into standard sockets and adjust light brightness and volume from the palm of your hand (iOS/Android app).

- Comes as a starter pack with one master and one satellite bulb. Add up to six additional Satellite bulbs for surround sound (8 total).
- Customize settings such as left/right channel and sound equalization
- Play your favorite saved or stored audio from Pandora, Spotify and more
- Fits seamlessly in 5-6" recessed light cans and other standard fixtures
- Eliminates clutter and wires, makes quality sound as easy as twisting in a lightbulb
